Port Orchard Kenpo Karate

Tom & Byanca Graves

Tom Graves is the owner and head instructor at Port Orchard Kenpo Karate. The School has been in business for over 18 years. Mr. Graves has 33 years of martial arts experience and received his 7th Degree Black Belt from Master John Sepulveda. He is also a 3 time international fighting champion.

Byanca Graves is also an owner and instructor. She has over 20 years of martial arts experience and began her training at Bronx Kenpo Karate Academy in NYC. She is currently a 5th Degree Black Belt.

All instructors at Port Orchard Kenpo Karate are personally trained by Mr. Graves. He preserves the integrity and quality of Ed Parker's American Kenpo.

REMEMBER

We are not born with confidence, self-esteem, discipline, anger management, and respect, that is something we develop through positive experiences and proper guidance.

What do we Teach and Study?

Ed Parkers American Kenpo Karate.

American Kenpo not only teaches self defense for today's world but is geared to develop a well rounded student of the martial arts. Ed Parker believed that martial arts is not just self defense. It entails intellect, environmental awareness, physical conditioning, and how our bodies in motion can be potential weapons.

Joining is as Easy as 1-2-3

ONE

The first step is to call and make an appointment to visit our school. We like to interview all our potential students. We believe that this interview helps both the future student and the instructor.

During this interview, you, the perspective student or the parent of the perspective student, has the

opportunity to visit the school where your time and money will be invested. You have the chance to ask all the questions you want concerning our school, our martial arts program, and goals you would like to meet. In turn, we also provide you with information and what we expect from our students and level of commitment.

TWO

Once you decide that this is something you or your child want to try, we then set you up for a introductory lesson. Why? This is the hands-on of what you or your child will be learning.

THREE

Begin your journey. We believe that any goal or endeavor in life are journeys we take to better ourselves. So pick up the phone and start "A Journey Of A Lifetime" or "A Lifetime Journey" in Kenpo Karate.
